

Organized by the San Angelo Museum of Fine Arts Education Department

Texas is facing the most devastating drought since the Dust Bowl.

**What will we do to manage the shortage? How will we care for water when it returns?**

## **CALL FOR ARTISTS (Deadline March 19, 2012):**

Work in all media about water will be accepted. Preference will be given to work dealing with Texas water issues--specifically scarcity and quality. *New media and installation encouraged!*

**This is an all ages show. Students, professionals and hobbyists are welcome to submit.**

Artists are welcome to sell work during the show with no commission.

**\$100 cash prize for "work most likely to inspire change" determined by a community jury.**

\$10 dollar entry fee per work (limit 2). Fee waived for Coop Coalition members and students.

Proceeds support the Coop Gallery! To join the Coop Coalition visit
