

Artist's Statement, Beverly Fetterman

The teapot has set the standard for the study of elements and principles of design throughout the ages. It has been a challenge and delight for me to pursue this study. By concentrating on simple lines and streamlined shapes, I have attempted with each piece, to develop a form inspired by stylistic harmony and balance. It is my goal to learn as I go, and to create something of aesthetic value.

I feel that we have to give ourselves the time and openness to be inspired. Inspiration is everywhere, if we are open to receive it.

MEMBER OF YEARS CLAY EXPERIENCE: 16

HONORS AWARDS: See next page
